Education

Indian Institute of Information Technology, Kota , CGPA: 6.54	Dec 2020 – May 2024
• Bachelor of Technology in Electronics and Communication Engineering	
Nav Jyoti Senior Secondary School, Rewari , CGPA: 7.8	2018
• 12th from Central Board of Secondary Education	
Nav Jyoti Senior Secondary School, Rewari , CGPA: 7.4	2016
• 10th from Central Board of Secondary Education	

Experience

Research Experience Detecting depression from EEG signals using AI and machine learning techniques	June 2023 – Dec 2023
• Research Role: Collaborated as a research assistant under Professor Ashish Kumar at Manipal University, working alongside PhD students on advanced projects in mental health.	
• Conducted a review of academic research papers.	
• Utilized a publicly available dataset from Kaggle and Performed analysis on the data.	
• Using machine learning algorithms like Linear regression.	

Projects

Personal Portfolio Website	Live Demo
• Developed a personal portfolio using HTML, CSS, and JavaScript.	
• Integrated responsive design with media queries (mediaqueries.css) to ensure compatibility across devices.	
• Organized project assets and created dynamic interactions with script.js.	
• Utilised custom styles (style.css) to enhance user experience and visual appeal.	
Flask Web Application Development	Live Demo
• Built a Flask app with user authentication (sign-up/login).	
• Implemented Jinja templating for dynamic HTML rendering.	
• Utilized Flask SQLAlchemy for database modeling and management.	
• Developed user account creation, session management, and note storage features with CRUD operations.	
Student Exam Performance Indicator Using ML (Python)	github
• Developed a web app using Flask and Python for predicting student performance	
• Conducted exploratory data analysis (EDA) to extract relevant information	
• Trained a machine learning model using EDA insights to predict student performance.	
• Utilized Pandas, NumPy, and Scikit-learn for data processing and model training.	
• Deployed the application on AWS EC2 instance.	

Technologies

Languages: C++, Python, SQL.

Tools: VS Code, Google Colab, GitHub, Linux, Docker, CI/CD, AWS.

Coursework: Data Structures and Algorithms, Database Management, Operating Systems, Object-Oriented Programming, Computer Networks, Mathematics

Soft Skills: Quick learner, Analytical Thinking, Problem-Solving, Communication, Team Collaboration.

Achievements

Hackerrank : (SQL Certificate)

Leet Code : Resolved over **250+** problems, including **150+ medium** difficulty problems.
