Professional Summary

Full-Stack Developer with 1+ years of experience building responsive web apps using React, Django, and MongoDB. Strong in REST APIs, authentication (JWT), real-time features (Socket.io), and clean, scalable code. Comfortable with Git/GitHub, deployment (Render/AWS), and writing production-ready features end-to-end.

Siverce

Full-Stack E-Commerce Website

Live Demo

- Built a full-stack e-commerce website using React, Django, and MongoDB with complete product, cart, checkout, and order flow.
- Implemented JWT authentication (signup/login), password hashing, and RBAC (Admin vs Customer).
- Developed RESTful APIs for products, categories, cart, orders, users, and admin actions with validation and centralized error handling.
- Added user features: search, filters, sorting, product details, add/remove cart items, quantity updates, and saved addresses.
- Built an Admin dashboard to manage products (CRUD), inventory, view orders, and update order status (Placed/Shipped/Delivered).
- Designed a responsive UI using Tailwind CSS and deployed on Render.
- **Tech Stack: React.js, Django, MongoDB, Tailwind CSS, JWT, Render.**

Education

Indian Institute of Information Technology, Kota

Dec 2020 – May 2024

- Bachelor of Technology in Electronics and Communication Engineering

Nav Jyoti Senior Secondary School, Rewari

2018

- 10th and 12th from Central Board of Secondary Education

Projects

Email Authentication (MERN)

Live Demo

- Built MERN authentication with signup/login/logout, JWT-based protected routes, and password hashing.
- Implemented email verification with token-based links and automated welcome/verification emails.
- Added forgot/reset password flow using secure, expiring tokens; stored users in MongoDB.
- **Tech Stack: React, Node.js, Express, MongoDB, JWT, Mailtrap, Render.**

Real-Time Chat Application (MERN)

Live Demo

- Built a real-time chat app using MERN + Socket.io with instant messaging and online status.
- Secured the app with JWT authentication/authorization and protected routes.
- Developed REST APIs for users, chats, and messages with validation + error handling.
- **Tech Stack: React, Node.js, Express, MongoDB, Socket.io, TailwindCSS, DaisyUI, Zustand, JWT, Render.**

Technologies

Languages: C++, JavaScript, SQL, Python.

Tools: MongoDB, Django, Express, React, Node.js, VS Code, Postman, GitHub, Linux, Docker, CI/CD.

Concepts: OOP, SOLID, Design Patterns, System Design (basics), REST APIs.

Coursework: Data Structures and Algorithms, DBMS, Operating Systems, OOP, Computer Networks, Mathematics.

Soft Skills: Quick learner, Analytical Thinking, Problem-Solving, Communication, Team Collaboration.

Achievements

Hackerrank : (SQL Certificate)

Leet Code : Solved over **250+** problems, including **150+ medium** difficulty problems.

Solved 500+ questions across different coding platforms
