EDUCATION

Indian Institute of Information Technology, Kota

2024

Bachelor of Technology in Electronics and Communication Engineering

CGPA: 6.54

Nav Jyoti Senior Secondary School, Rewari

2018

Central Board of Secondary Education

CGPA: 7.8

Nav Jyoti Senior Secondary School, Rewari

2016

Central Board of Secondary Education

CGPA: 7.4

SKILLS

Data Analysis: SQL, Python.

Developer Tools: VS Code, Google Colab, Git, Docker, AWS, linux.

Coursework: Data base management system, Exploratory data analysis (EDA) , Machine Learning.

Interests: ETL (Extract, Transform, Load), Machine Learning, Artificial Intelligence (AI).

Soft Skills: Analytical Thinking, Problem-Solving, Communication, Team Collaboration.

CASE STUDIES

True Dreams (Delhi-based Startup) – Data Analysis and Market Research - [GitHub](#) July 2024- August 2024

- Startup Contribution: Played a key role in the early stages of the startup, assisting in business analysis to drive strategic decision-making and growth.
- Challenge: Identified the need for deeper insights into customer behavior and market trends to improve sales of shirts, addressing challenges in scaling and product visibility.
- Solution: Conducted in-depth market research and data analysis to identify target customer segments, pricing sensitivities, and optimal marketing channels.
- Result: Provided actionable insights that informed data-driven marketing strategies, enhancing product visibility and setting the foundation for scalable growth.

RESEARCH EXPERIENCE

Detecting depression from EEG signals using AI and machine learning techniques - [GitHub](#) June 2023- Dec 2023

- Collaborated as a team member under Professor Ashish Kumar at Manipal University, working alongside PhD students on advanced projects in mental health .
- Data Collection and Preprocessing, Feature Extraction, Model Development like Machine Learning Models, Model Evaluation .
- Analyzed and optimized data pipelines, resulting in a 20 percent increase in data processing efficiency(after using CNN)..
- Depression Detection Using EEG Signals Dataset for Brain signals.
- Using machine learning algorithms like Linear regression , Random Forest, XGB.

PERSONAL PROJECT

Student Exam Performance Indicator Using Machine Learning - [GitHub](#)

May 2024- June 2024

- Analyzed the dataset to gain insights into student performance metrics.
- Conducted exploratory data analysis (EDA) to extract relevant information for modeling.
- Trained a machine learning model using EDA insights to predict student performance.
- Libraries and Frameworks: Pandas, NumPy, Scikit-learn, Flask.
- Tools: Docker, Git, Jupyter Notebooks.
- Deployment: AWS.

ACHIEVEMENTS

- **Hackerrank : (SQL Certificate)**
- **Leet Code :** Resolved over **250+** problems, including **150+ medium** difficulty problems.
